A YAQUI RUMOR

Railroad Employe From There Says Report of Mexican Slaughter Was Out.

about twenty-one years of age, who was raised in Tombstone, returned yesterday from Guaymas, where he has been for a number of months in the employ of the railroad company as a fireman on the switch engine in the yards at that point. He quit his job 2 few days since after being held in the Mexican jail at that place, The crew that he was working with accidently killed a Chinaman by backing a string of box cars over him. The crew were held in jail for ten days without being allowed to communicate with any one and were finally dis-charged through the efforts of the

railroad officials. Valencia states that a report came into Guaymas on Tuesday, the day that he left Guaymas, to the effect that the Yaqui Indians, who were sup-posed to have been surrounded in the mountains east of Guaymas by the Mexican troops just after they had been in to attend the peace conference, had made a break through the line of troops and that the soldiers were driven back and suffered a loss of over a hundred men. The Indians had arms hidden where they were surrounded and at the given signal made an assault on one of the passes and made their escape before the other troops could be brought to the aid of the companies that were

stationed in the pass.

This report is undoubtedly only a wild rumor, as no confirmation of the story can be secured.

RAILROAD VALUES FOOT UP \$1,190,666

Charged to the Southern Pacific Company in Maricopa County Alone.

Within the borders of Muricopa county lies \$1,190,666.32 worth of Southern Pacific property, according to statements sent to the board of suervisors by Territorial Auditor Sims Ely, who is chairman of the territorial board of equalization. Ely's figures are based on the conclusion eached at the recent meeting of the card, when the valuation of all railroad property in Arizona was as-
